Qualified as winner of the FIDE World Cup 2025.

His best game is considered to be against Vudar Asadli. Sindarov played as white.

Notice in the opening both white and black have placed bishops on the long diagonal, **fianchetto** line. Both sides have **castled early** in the game.

The end game finishes with a **revealed check**. His opponent resigned. Can you see how checkmate would have taken place after that move?

The revealed check for black is

The moves after that would have been:
